BOOK SYNOPSIS

To really nail the Science section of the ACT standardized exam, you have to understand basic principles of science - experimentation, data collection, numerical and graphic data analysis, and how to develop conceptual conclusions. Who better to write the test prep book than an engineer who loves science? Michael Cerro uses his background as a chemical engineer, chess player, and highly-impactful ACT tutor with years of test prep experience to write a book that offers a new approach to ACT Test Prep rooted in: LOGIC. He brings together copious opportunities to practice with sample problems at each strategic lesson, using customized questions that feel just like the real test. Michael has an ability to create essential teaching moments on each page, as you walk through the book; and you may even have fun doing it! Above all, his love of the exam and of science ensure that anyone who uses this book - from teachers to tutors to students - will master the ACT Science section as well as gain a valuable understanding about the world of science that will be beneficial throughout life.
